

Blessings to you dear folks,

I trust our Lord and Savior is with you guiding your path and warming your spirits that all may be well with you and yours. This is my morning prayer for all of you my dear friends in Christ.

Civic Activity in honor of the national flower...La Monja Blanca

We have been super busy here at AyO Christian School, getting everyone settled in for a new school year, and in particular for the new arrival of students that are coming from other schools both private and public. We are having to hire new teachers to fill the need we now have for several other

classrooms. But God is so good and as always has brought to us wonderful Christian teachers who love the Lord and love their chosen profession (Teaching.) We are blessed that is for sure.

As March approaches we are getting ready for some wonderful activity here at AyO. We have two mission groups coming to bless us with their visit. The first is Larry Crabtree and the work that he has done here in Guatemala for many a year. He will hold a dental clinic here at school on March 9th and 10th.

The National Flower – La Monja Blanca

He will be seeing to the needs of our children who most need their teeth taken care of, extractions and fillings. Larry is the Missionary who helped make possible our state of the art dental clinic. Larry, you have been such a blessing to our school and the Mam children of the highlands of Guatemala. While here, Larry will be visiting several other churches he oversees in the San Marcos area even further up the mountain than where we are located. Please do keep Larry in your prayers. Then toward the end of March a group of members from Liberty Foley Alabama church Pastor JP Wilson will be arriving with Dr. Wayne Martin and his wonderful dental team to bless us with dental work again for our children of AyO Christian. Along with them will come youth pastor Daniel McGuire and a group of young people. We have planned various activities including a walk up a volcano fun. Along with the arrival of Foley Church will be the arrival of my daughter Dr. Renee Ubico and her group of friends from Utah who will hold a medical campaign. They are planning to climb the volcano along with the young folks from Foley. We are busy bees for sure..... Please do keep us in your prayers, that all goes as God has planned.

Honoring of the national flower – La Monja Blanca

I again want you to keep us lifted up in your prayers as I mentioned last month our need for more space here at AyO Christian school. Our project fund is set up and you can send in your offering to Globe and it will be put into our building fund. Blessings to you all for your faithful prayers and financial help all these many years.

Yours in Christ,

Judy Hernandez
