

# THE KINGS HARVEST

in Mexico

## Blessings to you friends & family,

It was spring of 2015. We met her in a tiny village when she was just 15. However, as the oldest of soon to be five children her mom decided she was needed at home more than going to school. This hard choice turned blessing meant that she was home more often. As I told bible stories to her mother, she listened intently. Once I even saw her giggle in the corner while she was making tortillas for the days events.

With her parents consent to attend a youth group meeting with us, she started her journey to spiritual freedom. While attending, she got saved. She has such an evangelist heart!

We were able to disciple this young lady and today she is 17 yrs old. She chose to marry a young christian man from another village. They have welcomed a baby girl this past May and are firmly planted in a village christian church! Her mom's village known to us as "Village T" also has a newly formed bible study for which we prayed for over three years! Please pray that they will be able to endure the criticism and persecution as it comes.

## EXTRA, EXTRA!

It's all over the news today. People forced to leave their homes and family to escape hardship placed upon them by cartel and other greedy people. It happens daily. The numbers are staggering and strongly suggests a large influx of non-Mexican and Mexican people who continue their dangerous trek to seeking freedom towards the US border.

As Believers we know the only way to find true freedom is through Jesus. He died on the cross to grant us freedom from the bondage of the "lens" of past circumstances and the bondage of our sins. We are FREE indeed! Free to enjoy the life He has called us to, but we must not forget that the life He called us to is a life of serving one another as it says in Galatians 5:13.

We continue this month to meet with people stateside and encourage them to have a part in the great commission. Last month our funding jumped from 18% to 28%. This is exciting news! Our next plan is to send Tynan down in August to Mexico and check on our things that may have been damaged during rainy season. We have also been meeting with other Globe Missionaries through Skype as a starting point in looking for future scouting areas.

Our first transition point will be Chiapas, Mexico. This is one of the most-reached states for the Gospel and it bears some worth to see how persecution has shaped the christian church there as well as give us insight to see what unreached areas have the potential to look like. We would love to be able to scout out as many as 3 other peoples/states this Fall in seeking to know God's plan when we will fully transition back to Mexico.
