

Globe Required Reading Reflection Sheet

After you finish reading each book on your required reading list, please take a few moments to write briefly about what impressed you during your reading. Try to at least use the front area on this sheet. Use the back if you need more space. Your reflection should respond to a statement like, *what I learned from this book or what impressed me most in my reading*. This is not a book report, but an expression of things that impressed or impacted you as you considered the author's reasons for writing the book. As you read, try to grasp the author's primary purpose in writing, and then relate how that purpose communicated with you, and how you believe the book will influence your activities in the months ahead as you itinerate and eventually move to the mission field.
