

The King's Harvest

GO. DISCIPLE. BAPTIZE. MULTIPLY.

Dear friends & family,

There wasn't a single drop of rain in sight as we drove into the village. In fact, the temperature in the truck showed the outside temp to be at around 84 degrees Fahrenheit with a few far off grey clouds rolling in. We pulled into the parking spot as we do normally and felt a few drops of rain.

As we sat down, we waved to a lady coming up the hill with her groceries. Within a few more minutes in came a surge, a torrential downpour of rain and also "sonic ice" sized hail as our daughter Hayden pointed out. She quickly handed the lady an umbrella as they sought cover under a carport across the street. Hayden then made a mad dash back to where we were and we spent the next hour and a half huddled inside the kitchen waiting for the summer storm to end. As you can see (above) a lot of rain at one time calls for the need to "sweep" the water from the porch.

After the rain ended, we stayed huddled in the kitchen modeling the class for the new leader. We weren't to know that a few weeks later in this village we would be asked to not make the drive as the local authorities shut down the possibility for people to meet due to mandatory virus precautions. It was disappointing to hear this but we know that God has all the people in His hands.

We have been very blessed to have kept training with these believers for as long as we were able too during the crisis. We ask that you continue to keep them in your prayers as they too are experiencing a time like no other. We trust in the Lord to do everything in His time and there isn't a doubt in our minds that He will get the glory for the great things He has done.

- *The Barnes Family*

Prayer Requests:

Two of the families we know have lost family members this month due to the virus.

Pray also for the families as they individually study the Word during this time.

Pray that we will be safe and protected according to the Lord's will as we seek to disciple spiritually hungry people.

August 2020

Happy 12th Birthday Hayden!

This next month we will move to a new house close by!
