Hebrews 10:39

**Katie Magill**

**April - October 2020**

**Dear Family, Friends and Ministry Partners,**

Thank you for your prayers and continued support through these uncertain times. We are pleased to report we are safe and healthy. Please forgive me for the length of time between newsletters. Being on lockdown meant working overtime so I will do my best to bring you up to date.

**April, May, June** – In early April I had an encounter with the Lord that left me weeping for hours and crying out to the Lord for our children and the restoration of their lives and families. I needed the Lord to help me recommit to serving them, wholeheartedly, without fear of loss. The Lord was not only working in my heart that day, but He also touched my son and the hearts of the ladies staying in my house, as well. (My 2 visitors that came for 4 days stayed for 4 months- they only left in July. Elizabeth, from Kenya, is still here. She hopes to fly home in October.) We continued to intercede for these kids and their families. I felt like the Lord had given us a “gap or a window of time to do something”, “under the radar”. I knew He would lead us, but that we had to make a move and not hesitate. Revival at Our Transformation Centre began with the Salvation of 13 of our youth on Easter Sunday. The Lord reminded me there can be no transformation without Salvation. We began reading through the book of Acts until Pentecost Sunday and the day before Pentecost the kids and one staff member were water baptized. God has used this time in incredible ways, to bless, refocus, and grow us, in Him. Partnering with Him is the best move you could ever make!!! In one of the strangest times we have ever known Globally, we have cried, prayed, laughed, danced, celebrated, marveled, and felt completely overwhelmed by His goodness. I know and understand that some of you have been overwhelmed in different and far more difficult and painful ways during this time

and we have been praying for you. I can only say this...God’s timing and plans are perfect. I don’t know why He chose this time during Lockdown in Mozambique to move as He has in our hearts, but I do know that something happened in the hearts of these children that we have not seen before. As we worshipped and spent more time with them than usual doing mundane tasks like clearing the land to plant, their hearts softened toward the Lord. As they were growing, they were able to forgive and release years of offense, pain, and rejection. They were then free to pray for their family members and ask God to help us locate their families. It was amazing to experience this breakthrough with them.

**June, July, August** - They have seen God do a lot, but this time it was happening “In” them. We have been looking for some of these families for 13 years. And suddenly...we have been able with God’s help and theirs, to locate parents, grandparents, aunts, uncles, siblings-someone for every one of our children...it has been tremendously encouraging!!! Talk about a “big clean up, and clean out” Spiritually and physically. As we cleaned the grounds and every inch of our Transformation Center, it was as if God was showing us what the cleaning of our hearts looked like. The kids and staff have been seeking the baptism of the Holy Spirit and one of our teenage girls was touched by God while working in the field alone. She started speaking in tongues and all the other kids and educators said, “they saw a miracle first hand,” they want more of God and are actively pursuing Him, like never before. They need real encounters with God that will mark their lives and teach them how to stand firm in trying times.

**September** - From the moment we knew that lockdown would continue and that we would not be able to move around as we have before our focus changed. We temporarily "closed" the Day Centre, and took to the streets and bairros in search of any living family members we could find of the children at our Transformation Centre, and several of the Princesses who had already passed away, leaving their children with us.

This required Necessary Changes/Precautions: Due to the fact that some of our children and staff members are HIV+, we had to be particularly strict with who could and could not enter our property. From March to August our staff was being transported to and from work. This meant a lot more work for me and time on the road. While doing online schooling with my son from 8 am to 12:30, trying to keep up with admin, delivering bread donations, doing the regular food buys and deliveries, banking, and working overtime with a limited staff to locate family members of our children. We needed all your prayers!!! Thank you!!! We thank God for His provision and His

promises fulfilled. I felt it important to show you some of the miracles in the photos below. They say a "picture is worth a thousand words" look at those smiles... they speak of resurrection life, hope, dreams, and family.

We appreciate your generosity and the sacrifices you have made to continue supporting Project Purpose. We are praying for all of you and trusting the Lord to bless and protect you and your loved ones.

Richest blessings,  
**Katie the PP Team, the Princesses and Their Children**

Fernando's mother returned from South Africa after 4 years with his younger sister. He found out his father is living and he has an older sister, and grandparents, a whole extended family. He thought before he was alone in the world. God answered his prayers.

Tania (14) met her aunt after 10 years

Marianna visited her brother.

Joaquina visited her father after 10 years

Assia had not seen her grandma since she was 22 months old. She is now 14 years old.

Sonia(Mom came) Jessica(Granny and aunts visited), Joaquina (her Granny visited) and Elsa (her granny, aunts visit.)
