

The King's Harvest

GO. DISCIPLE. BAPTIZE. MULTIPLY.

Dear friends & family,

We LOVE to see the Lord work on people's hearts. Alberta and her grand-daughter Fernanda were baptized last week. This was a special time for us as they publicly showed their profession of faith. It was a labor of love to use an old fashioned pulley system and a deep well to fill up the baptismal. As you can see from the above photo, we had a lot of helpers.

"God is love. Whoever lives in love lives in God, and God in them..We love because he first loved us."- 1 John 4:16,19"

Because of situations beyond our control, some days are easier to show His love than others. We have been separated from our disciple groups for quite a few months now. It has been hard not seeing them in person. As the Lord showed us last Thursday, He is the one holding them in the palm of his hand.

As SLP City fluctuates between red and orange health zones, our thoughts often wonder how many groups will actually want to continue the disciple studies after such a long break in between. It's really not our problem to worry about this. All things happen in God's timing so we can rest knowing that He has it all in control. We just need to be open and available as those doors open or close for us.

Our little guest house has seen quite a bit of use this past Jan/Feb. We were blessed to host two missionary families as they made their way through SLP on their way home. We enjoyed catching up and swapping stories. As they say here, "Mi casa, es su casa." (My house is your house.)

Prayer Requests: As we continue to be blessed with good health, please pray that Alberta and Fernanda will be bold about their recent baptism and faith. Pray for the groups we haven't met with yet due to COVID. Pray for our white truck to sell in Michoacan.
