

Judy Ubico-Hernandez

February 2021

Hello to you all my dear friends in the Lord.

Know that we are praying for you all that you are well and God is blessing you abundantly.

Here in Guatemala, we are now into our second month of school and God is blessing us greatly. We have almost reached our student numbers of last year, and that just goes to show us how great our God is. We are giving classes both in classrooms and online. Most have decided to come to classes here at AyO two days a week, and online the other two days. We have had some parents who prefer to keep their children at home and for them, we have the option of all online classes. It really is the exception, most children want to come to school and the parents have supported this. We are holding true to all the rules and regulations that the government of Guatemala is asking for, to keep our children safe from the corona virus.

At this time our town of Ostuncalco has passed on to yellow of the corona code. This means that we could start all in-classroom classes but we have preferred to continue as we had planned this year. Since this virus is so unpredictable, we at any moment are ready to go back to online classes if we were to get a red code again. Not to be taken by surprise. Rather be safe than sorry.

I do ask you to remember us in your prayers: myself, the staff of teachers, office folks, the dear people who keep our school spic and span. Pray that we are able to continue on with our labor of love, teaching, and sharing God's word with the children of the Mam Indians in the highlands of Guatemala.

Blessing my friends.
