

## The King's Harvest

GO. DISCIPLE. BAPTIZE. MULTIPLY.

Dear friends & family,

April 2021

It has nearly been a year since we started meeting with disciple groups in SLP. To have been a fly on the wall during those first few months, next the pandemic came, then a few months absence, and now reunited these past months to see them, you would most certainly be amazed at the Lord's work. Last night was so special to us as we heard confessions of faith in Him as they counted the cost.

Nights like those are what we pray for to happen many months beforehand, often before the seed is planted. We pray for open doors, receptive hearts and that the Lord would show us who to speak to next. Success at training disciples in central Mexico and online via Zoom has largely come when we are listening to the Lord and His direction.

Many times during the last year, we wondered if we should be reaching out further south to other areas. All those times, a door never opened. We have been praying about going further south to a specific area. Last month, we had an opportunity to speak with someone who had recently been there. They have a gospel work outside of the area and told us that another work by another group had been started. We were so happy to hear this.

We have wrapped up the meetings with the groups as we prepare to return to the states for a few months to share our personal stories and ministry experiences. We are very encouraged that these groups will continue to meet and use the Mega Voice devices that they have been given. As they come to mind please say a prayer for boldness and that the Lord would move in a mighty way as they are faithful.

We are eager to be able to return and see many of your faces. As we travel this month, please pray for our safety and to have good health.

- The Barnes Family
