chosseen(Hebrew - bridegroom)

April 2022

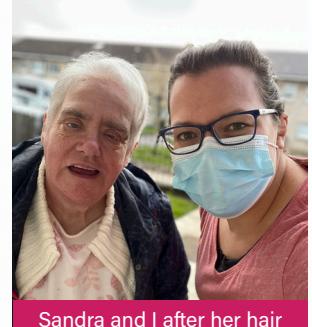

Hello Friends,

I pray that you are all doing well! Thank you for all of your continued prayers and support! You are not only a blessing to me, but to all whom I come in contact with. Thank you for being a blessing!

God is moving and I am excited! Lately, I have been thinking about how things don't always go the way we want them to. When I think about this, and reflect, I see God's 100% goodness at work.

For instance, Sandra's health still isn't doing the best. She has carers coming in several times a day to help her. She has infections in both legs but she has been trying to get her doctor to send a nurse out for weeks now. Please pray for Sandra's health and that God will give her favour with the doctors.

A couple weeks ago, I took Sandra out to get her hair cut. Since she is mostly home bound and can't go very many places by herself, I decided that I would make this a once a month happening. Previous to me taking her to her hair appointment, she hadn't had her hair cut for 7 months! This is a long time! Upon getting her hair cut, you could tell that she felt like a new person and was much more confident. My hope and prayer is that she will continue to feel confident and fight for her health and not accept that this is as good as it's going to get. She is in her early sixties.

Sandra and I after her hair appointment!

Visiting Sandra - myself, Ruby, & Sandra

One of the ladies meetings - Chris, Sandra, Cathie, & myself. During this meeting, the ladies opened up and shared about what places they need God to help them. There were lots of laughs, tears, and great conversations! Love these ladies!

Helen's health is also not doing well at all! She has a stomach condition that causes her not to feel well most of the time. She is currently waiting to see the doctor so she can talk about surgery options. I have been speaking with Helen and she spends most of her days in bed. She said she has no energy and just feels sick all the time. She did say that she has a good day here and there but they are far and few between. Please pray for Helen's health and that she too will stay strong and fight!

These are just a couple of the people who have been struggling and yet, in all of this, God IS faithful!!!! My pray is that the ladies will see Him working His good for them, even though they are struggling! God is in all things and has His best in mind for them! For this, I am excited for them to stand strong and fight against these hardships! Will you join us!?

Covid restrictions continue to dissipate in our area but we are still asked to wear masks. Please pray that restrictions will lift all the way so that the Haney's can get back into the schools to have Kinrick kids in person! We miss being able to do this and we know that kids miss it too. Please pray that we will be able to get into the schools this fall!

I love working with the women and children of this country! Please join me

in prayer that God would awaken the hearts of His people! That they would hear Him calling their name! I gave the message in church the other week and was talking about how, when God calls out our name, He is calling out the very essence of who we are - He calls forth all that He has placed inside of us. I want this to be the reality of the people here in Scotland! That they would see His heart and every good thing that He has placed inside of them.

Blessings to each one of you!"
