

# The King's Harvest

GO. BAPTIZE.  
DISCIPLE. MULTIPLY.

## Dear friends & family,

In a remote, quiet village in Central Mexico, two brave pilgrims walk along a dusty street to bring the Gospel to people who have never heard. The testimonies that Tynan and fellow missionary Phil Covone have had this month, have truly been incredible.

Our friends, Phil and his wife Jami had returned for a short trip and Tynan was able to transport them (in the Jesus' truck) to a village north of the city, in which the family who owns this small store accepted Christ. (right photo)

The mission field is indeed ripe for harvest.

September has been a bustling month and the Project H.O.M.E Mission House/Training Center has been filled up. Opportunities for discipleship have abounded and two teens heard the Gospel for the first time in our living room (left photo) during a recent stay here with their family. Praise the Lord for the ability to rent this property and to be a blessing to those who have open ears to hear.

This month, our second oldest child, Evelyn, turned 18 years old. She has grown into a lovely young lady and is currently in her Senior Year of Highschool. She plans to graduate Class of 2023. Her future plans are likely to include a gap year program in the U.S. as she re-acclimates herself to the culture she grew up in. Please be praying for her as she hears from the Lord on her future plans.

**Praise Reports:** Thank you Lord for the many open doors to share the Gospel this month. We did indeed receive an abundance of "RAIN". This was a much needed answer to prayer for the local people being affected with drought like conditions.

**Prayer Requests:** : Please join us in praying for Evelyn as she hears from the Lord on her future plans. We are also expecting a few more short term teams to come to visit as the year closes out, so prayers for their safe travels.
