

JUDY UBICO HERNANDEZ

Serving in Guatemala

Blessings to you all my dear friends and supporters. Sending love and prayers to you all, and many thanks to you for your prayers and support all these many years. We have a faithful God.

Well here we are in September, this reminds me of crispy mornings and the old yellow school bus pulling up in front of our little house in Somers, Connecticut to start another year of school. The leaves would be starting to change colors on the lovely oak trees that surrounded our house there on the mountain. Then there is my birthday September 22, when I will be 80 years young. God has been so good to me. I was 30 when I found Jesus and what a wonderful life changing event it has been for me and my family and the lives I am able to reach through our mission, Alfa y Omega Christian school. Reaching the children in the mountains of Guatemala and bringing them the Word of God and education in a Christ centered school. This is where the seeds of salvation are planted daily in the hearts of all our children. Oh what a harvest this will be.

On October 14th we will be starting construction of our second floor classrooms. I do recall in December 2021 that I was informed that funds had come in for our new learning areas. I remember saying to the Globe team that it would be October 2022 before we could start building. That seemed so very far off, but here we are and in just one month we will be in full steam ahead with our team of workers. Much planning and work has gone into this grand event but God is faithful always. Please do keep us in your prayers that funds will continue coming in as we still have to equip each class, and as many of you know there are always extra unexpected expenses. So prayers please and safety for all who will be working on the building of this blessings. Prayers to each and everyone who is part of what God has us doing among the lost of Guatemala.

Love, *Judy Hernandez*
