Tong Mee is Sharing the Gospel with others.

This month we wanted to share the story of how God had worked in the village of Khun Noi. Back several years ago we were doing a scouting trip and Mrs. Gaan wanted to visit this particular village because she had heard that her friend's husband was sick. (We eventually found that couple and God worked miracles in their lives and now they follow Jesus.)

That day, as we were walking around a lady named Thong Mee was sitting under her "sala" which is like a thatched-roof gazebo. She asked Mrs. Paay, one of our team members, what we were doing. Paay told her we were out telling others about Jesus. She was amazed at this and invited us to join her and tell her more. She said she had been reading a cartoon pamphlet about Jesus someone had given her at a funeral. When she read about Jesus dying on the cross she was really touched and was even crying but she didn't know anyone that could help explain the pamphlet. In her heart she really wanted to know about Jesus. She welcomed us and was transformed as she began to trust in Jesus.

Our team has faithfully gone back to visit Thong Mee and other people in that village and gradually there is steady group of Jesus followers meeting regularly together.

Thong Mee has been instrumental in helping many others in her village follow Jesus and has been praying regularly for her daughters to come to Faith.

Nit, one of her daughters was touched by the Lord a while back, but she was so busy with work, she wasn't able to join in the meetings. She began to have headaches and tightness in her chest and was not able to see the doctor because the doctors are very occupied with covid patients. One day she saw her mother's prayer book and thought, "Maybe the Lord is calling me." She opened the book and started praying the prayers every day. Within three days she saw some improvement and within five days all symptoms were gone! God also worked a miracle for her in her business. She grows

flowers for a living and her main buyer got another job. She prayed and the lady recently called her and said she was coming back to work and to get the flowers ready because she was coming to sell them as before. She was testifying and praising God for taking care of her. She said she was now ready to give her life to the Lord and be baptized. Thong Mee's other daughter, Nom, began to see God working in Nit's life and decided to trust Jesus and be baptized as well. Praise the Lord! Please pray for this group.

Please continue to pray for us. We ask for prayers for strength and grace to increase. Thank you for being a vital part of our team.

We are so grateful for your support, prayers and love! We love you!
