## Caring for Missionaries Around the Globe

### A Ukraine Connection

Goshen, Indiana to Pensacola, Florida is a long road trip. We can't easily stop in at Globe offices to meet someone passing through, or to attend a last-minute meeting. It takes effort and planning. What we didn't realize at first was that if someone does venture into the Midwest, chances are that we may have them all to ourselves.

In September, we had the delightful opportunity to meet with Yuriy and Madison, Globe Missionaries to Ukraine. They came to the Midwest for a seminar, held only a couple of hours away from our home. It was an honor and privilege to be with them and hear their hearts.

### Capstone

We love making personal connections face to face. So, in the beginning of October we traveled to Globe headquarters to get to know 6 adults and 6 children preparing for the mission field. One family is going to Thailand to work with a veteran church planter. Another family wants to work in France. Two women were here without their Costa Rican husbands. They have been on the field, but now they have chosen to work with Globe International. This meeting, called Capstone, is the launching point after training, and before going to the field.

## Member Care Training

After Capstone many of the Member Care workers gathered at Globe for two days of training and relationship building. Dr Andy Yarborough has been helping us to improve the quality of care we give our missionaries. On a foundational level, he also helps us build well-being into the core of the organization.

In the midst of all this, we had a divine appointment. While visiting with Doug Gehman, the Executive Director of Globe, he mentioned needing someone to pick up Jorge and Rosa Gutierrez from the airport. Since we have known them for years, I quickly volunteered. We spent 5 hours with them and enjoyed every minute. They are the kind of friends who can be apart and the next time we see them it is like we never left.

A few of you live outside of the United States. You still pray faithfully for us and encourage us, but you don't use dollars and cents. There is now a way to financially support us even if you use Euros or Pounds Sterling. Please contact us if you want more details.

Blessed, to be a blessing, - *Ken & Becky Holderman*
