

THE KING'S HARVEST

DISCIPLE MAKING MOVEMENTS
CENTRAL MEXICO

Dear friends and family,

This month's evangelism training with the Time To Revive Team saw 40 people trained to share the gospel in a simple method and 20 salvations within an hour. It was imperative that people who attended the training were guided to immediately share what they had just learned. As Tynan and his group of four were approaching a street corner, a lady in a pink shirt looked them directly in the eyes and started crying. She shared about the hopelessness she had been experiencing and accepted the Lord right then and there. She doesn't live near that area, so we will be starting a discipleship group with her.

We celebrated Tynan's birthday at an Eco Park nearby. We enjoyed horseback riding, digging for dinosaur bones, a 2k hike to a lookout, and a zip-line ride across the crater. While horseback riding, Oren (7) was able to share the gospel with Annie, the horse guide. She speaks several languages and it was a neat experience, as he is usually pretty quiet when meeting new people.

The children's ministry is going well. We have been developing a youth companion guide and a children's coloring book to accompany what the adults are learning. It's important for growth that the groups are all learning together. Every week they ask me to "check" their homework. We have also incorporated "manners/values" into the class. This generation of post Covid children will need modeling in these areas to make up for time lost. It is our goal to see them equally develop in their physical, mental, and spiritual lives.

Praise Reports: Doors continue to open to network with local pastors for evangelism training. We are praying for a remnant of workers to be raised up, that will join us in ministering in the rural areas of SLP.

Prayer Requests: Our stateside travels begin April 14th. Prayers are appreciated for travel safety and border crossing. We also need a speedy return of our passports that will be sent in mid-April.
