

HUTCHINS NEWS

We have been open for ONE full month!

Can you believe it, we have been open for a full month! Our children are doing wonderful and adapting very well to the activities and schedule. We have six children who are under 2 years old and another ten who are between the ages of 4-6. Their daily schedule consists of academic classes, snacks, breakfast, lunch, crafts and even English. We have also celebrated a lot of special days; Autism Awareness, Easter, Earth Day, Book Day, and a Day Against Bullying. It is fun to watch the children grow, learn and be exposed to activities they have never done or experienced before coming to the Preschool.

Preschool Closet:

We are excited to announce we will be opening our first two "Preschool Closets" in Minnesota. What is a preschool closet? Well, I am going to fill you in! A preschool closet is a place or places throughout the year that you can drop off specific items for us to use at the preschool in Costa Rica. We have guests and scheduled visitors throughout the year who will be helping us transport these items directly to us. Items must be new or in a package and can include but are not limited to: baby bottles, children's clothes ages 0-7, small cars, small dolls, baby shampoo, diaper rash cream, teething, Montessori activities, tooth brushes, children's Tylenol. For a full list, the addresses of the "Preschool Closet" drop off sites, and more updates please pay close attention to our social media sites.

We are going to be back in MINNESOTA!

John and I will be back in Minnesota and staying with our daughters for the month of June. We are hoping to catch up with all of you who have made the preschool such a beautiful blessing for the children and families that we serve. Stay tuned on social media for planned events and times to meet. We are even planning a backyard BBQ with the Hutchins where you can bring a dish to share and visit with us!

The things our children say!

Victoria: "From 0-10 I am going to give you a number 11 for the food!"

Desiree: "Yes, I know that animal. It crawls up trees and passes gas." (A Skunk)
