

THE KING'S HARVEST

DISCIPLE MAKING MOVEMENTS
CENTRAL MEXICO

Dear friends and family,

Our state side travels this summer continue to be fruitful. We had a wonderful time enjoying visiting family in Indiana and Missouri. Mid-May we traveled to Pensacola to attend the 50th Anniversary of Globe Intl. Such a treasured time to spend the evening meeting and conversing with so many people who "get it". As the adults met, so did the children of Globe Missionaries. Oh the great stories and laughs we swapped for many days after.

Our two oldest children finally made it into the same area so we could spend some time together. We had a fish fry, ate lots of icecream, went fishing, creek exploring, held Maine Coon cats and a baby raccoon. Never a dull moment with family.

During May, on our return trip to Indiana, we had a spark plug work itself loose on our green family truck. It was an incredible testimony to the hand of the Lord as a gentleman pulled over right away and helped us get it patched to get back to Seymour, Indiana. Then, some friends in GA, who we have previously worked with in San Luis Potosí, loaned us a more secure vehicle to continue our travels and return their vehicle for them to Mexico.

We are now back in Texas, eagerly awaiting the return of our two children's passports in a timely manner. We are continuing to meet with people in the mean time. We know the Lord has His perfect timing on our return. We hear of more and more trouble at the border, as we live in a broken world, it is a constant matter for prayer and trusting. Our hope is that the passports will be ready in the next couple of weeks.

Praise Reports: Doors continue to open up in SLP to network with local pastors while we are here stateside for evangelism training. We are believing for a remnant of workers to be raised up, that will join us in ministering in the rural areas of SLP.

Prayer Requests: We continue to wait for two more passports to come in. Once here, we can make our way south and back to Mexico. Please pray for a speedy arrival.
